DETAILS INQUIRER

Company name :
Person to contact :
Telephone number :
Fax number :
E-mail address :
Internet :
Project name :
Reference number :
Status of project : actual/budget

Material to be stirred

Specification Components	Quantity m^3	Density kg/m^3	Viscosity Cp	Temp. °C
Final Product				

Duty O Keeping product homogeneous O Homogenizing
O Mixing O Dispersing O Heat exchange
O Other:

Intensity O Product susceptible to damage O Products not susceptible to damage

Does the product contain solids or vibrous parts O YES O NO
If YES please give size (L*W*H) : ..... mm * ..... mm * ..... mm

Can products be mixed together: O YES O NO

Are there exothermic reactions: O YES O NO Max temperature:

Injection piece required O YES O NO

How high is the working pressure in the pipe system : ..... bar

How much of a pressure drop is acceptable as a result of installing the mixer: ..... bar

What kind of pump is used:

Materials O Carbon steel O Stainless steel type
O Carbon steel covered with O Stainless steel covered with
O Special materials: .....

Mixer connection O Couplings according to O Flanges according to
O Other:

Mounting position of the mixer O Vertical O Horizontal

Which material certificates are needed: O Material certificates O Hydrostatic test certificates
O Stoomwezen O TUV O Other

Remarks:
